

A little background

Multiple Stellar Population

First Generation
N-Na poor and C-O rich

Second Generation
N-Na rich and C-O poor

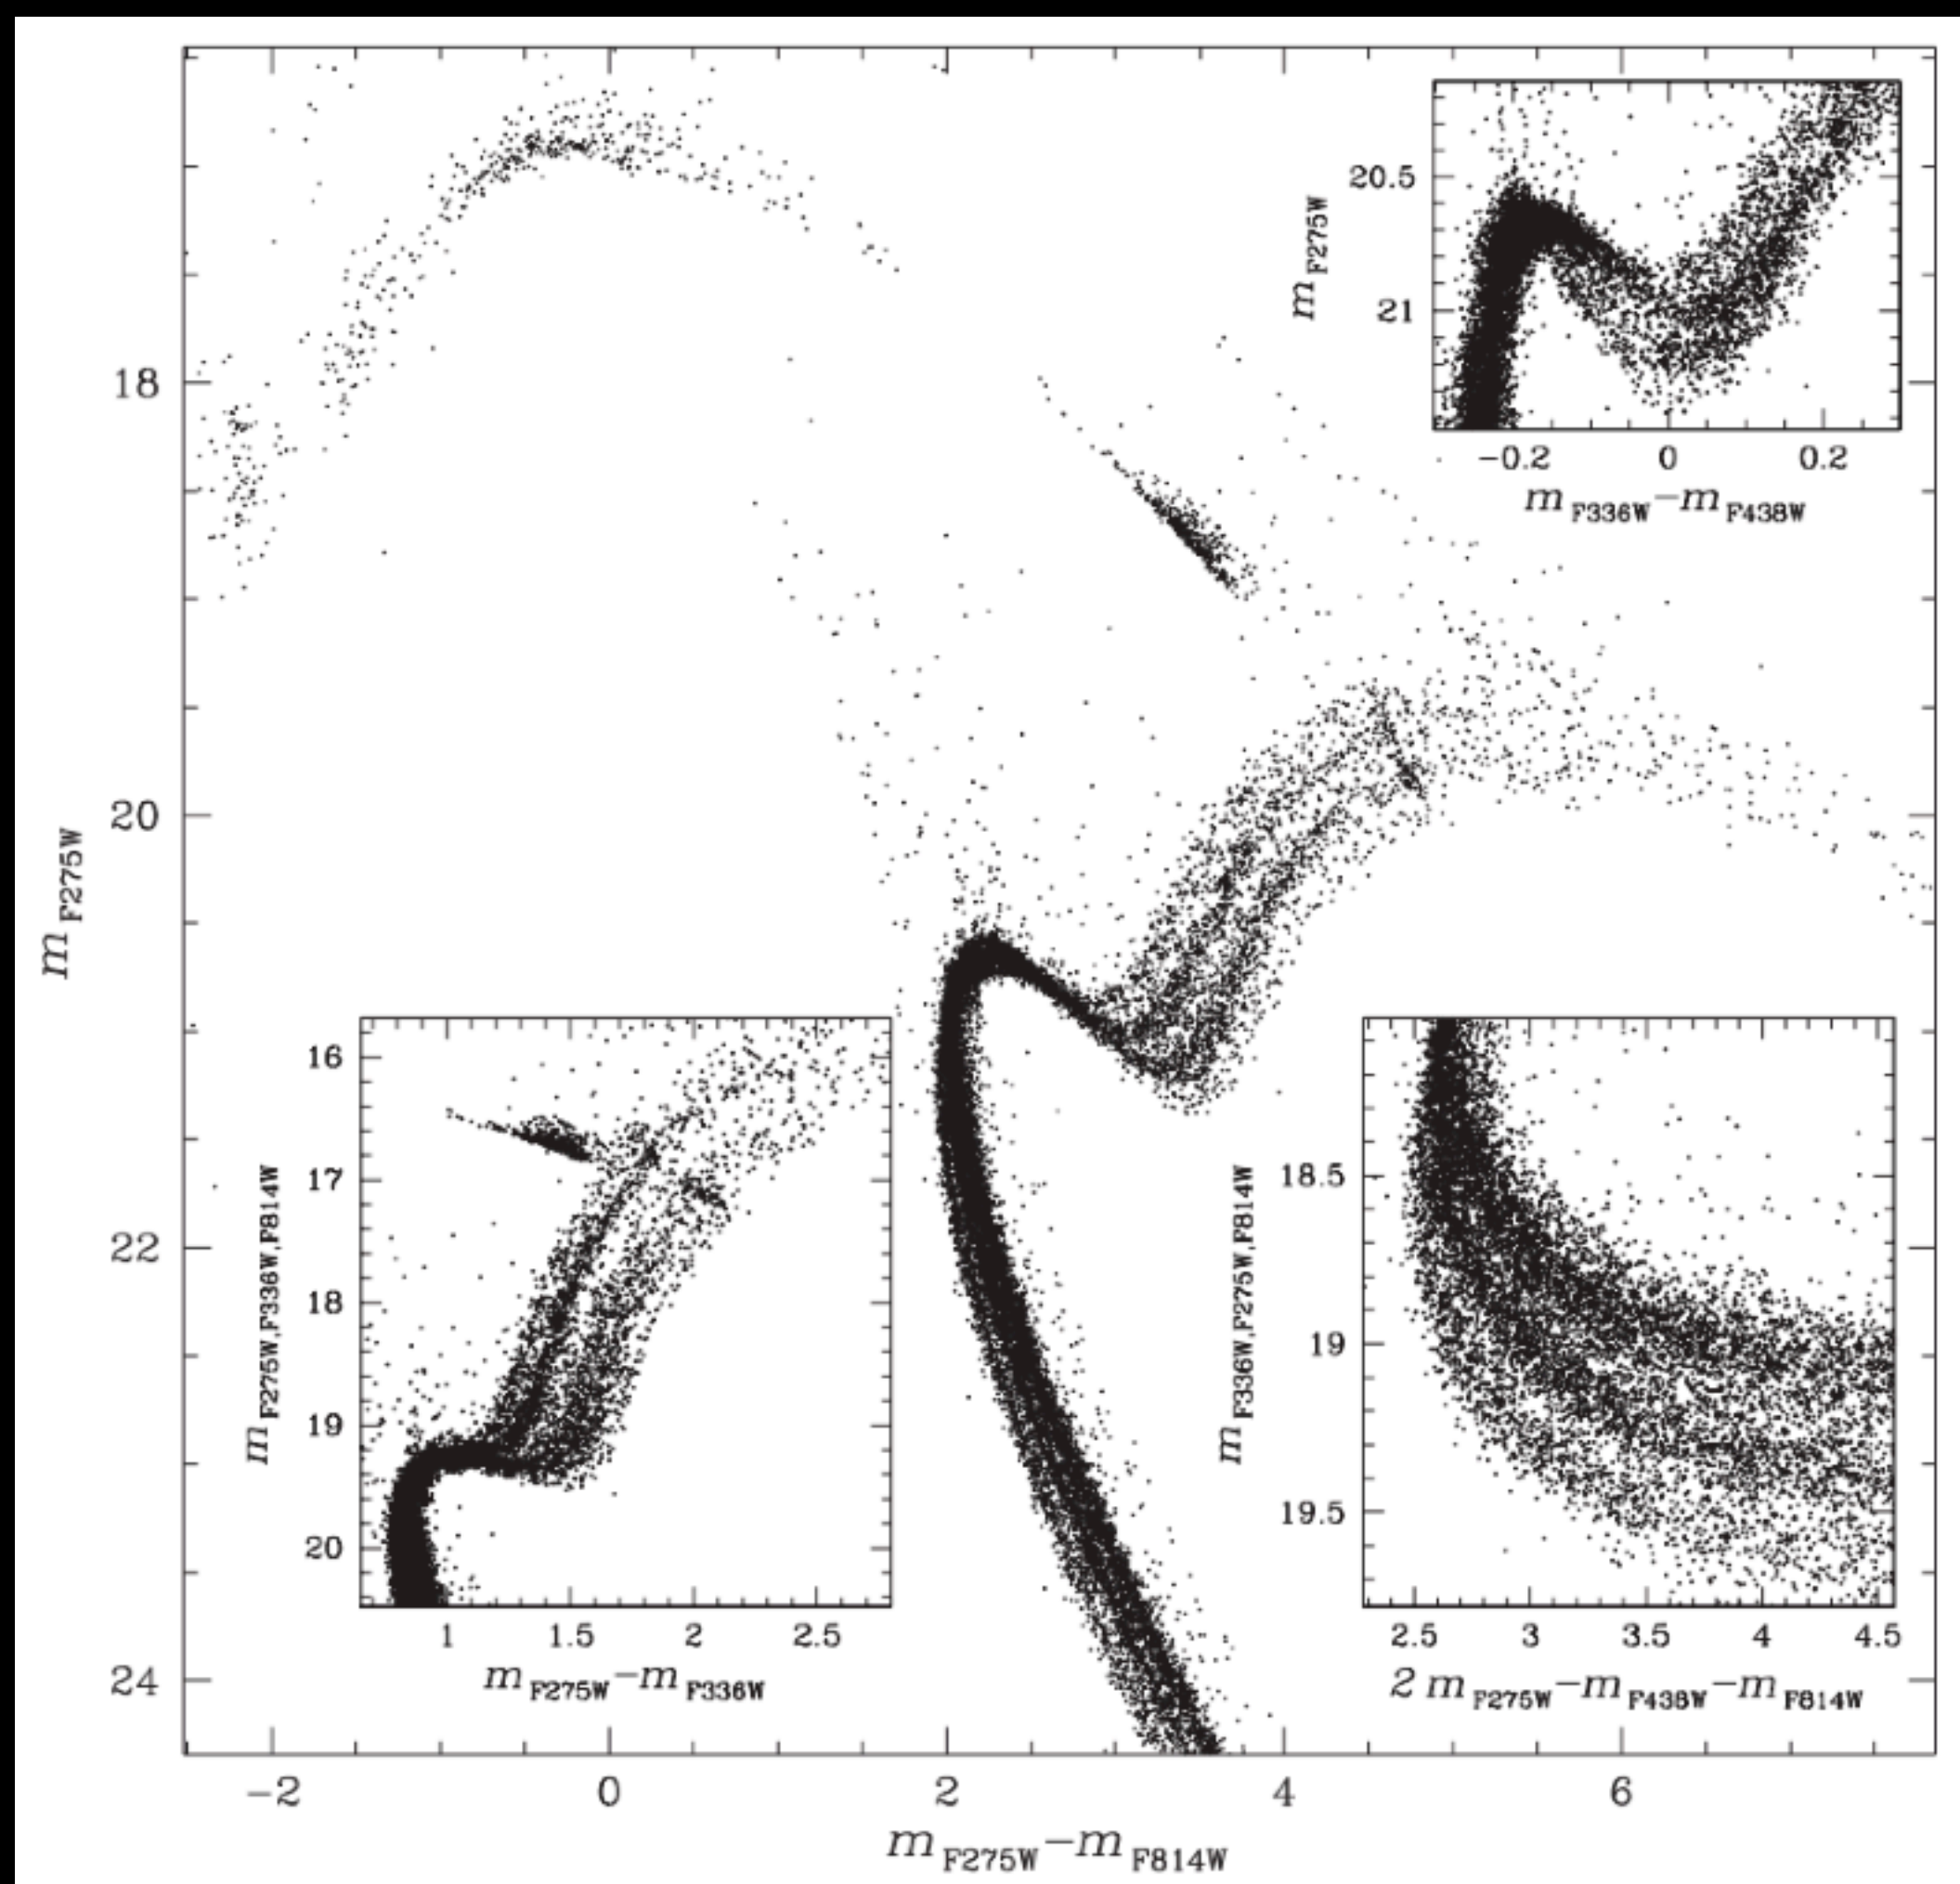

- CNO-Cycle
- NeNa-Cycle
- MgAl-Cycle

A little background

Multiple Stellar Population

First Generation
N-Na poor and C-O rich

Second Generation
N-Na rich and C-O poor

- Differences in their chemistry will be reflexed in their CMD
- Also this will affect their evolution (Mass Loss has been suggested)
